POWERPLAY — Turn Reference Card

*Turns are lean. Hand refill happened at the **Opening Bell**; income comes at **Call-it-a-Night**; Asset buying happens at the **Market Operation** and the **Lunch Break**. Loans, deals, and Asset sales can happen at any time you are not inside a resolution. Your turn is **The Inbox** → **Action** → **Organize the Desk**.*

1. The Inbox

At the start of your turn, you may buy:

- up to **1 Action card** for **2 Coins**, and
- up to **1 Reaction card** for **1 Coin**.

For each buy, draw the top 2 cards of that deck, keep 1, discard the other. *(This is the only place cards are bought — the Opening Bell refill is free.)*

---

2. Action Phase

Take exactly 1 Standard Action (leaving it unused is allowed):

- **Play an Action Card** — **free to play** (no Coin, Influence, or Power cost). The base effect resolves, and **2 of your primary-Industry Assets fire** their Synergies.
- **Influencing Decision (optional):** pay **1 Influence** when playing the Action card — the card's **secondary Industry is unlocked** and **1 more Asset fires** (from either Industry), for **3 fires total**.

Fires resolve **one at a time, in the order you choose**; each targeted player may **React before their fire resolves**.

Playing an Action card is the only Standard Action. Private Equity happens at the Lunch Break. Taking a loan, making a deal, or selling an Asset is never an action — do it whenever you are not inside a resolution, even between the two Actions of a PowerPlay! turn.

Free Actions (do NOT consume your Standard Action):

- **Character Ability** — **free to activate** (no Coin, Influence, or Power cost). Requires **holding 1 Power** (checked, not spent). **Once per round** (1 use across both your turns), and usable **only at the moment printed on your character card** (a phase, or an event such as making a deal). It can be Reacted to.
- **PowerPlay!** — hold at least **4 Power** and pay **2 Power** → you may **play up to 2 Action cards this turn**; **one of them gets the Influencing Decision free** (the other may still buy it for 1 Influence). Also **draw 1 Action + 1 Reaction card**. **Once per turn.** Every fire it produces can be reacted to as normal.

Action cards / Asset Synergies that grant +1 Standard Action stack even after the Standard Action is spent.

---

3. Organize the Desk

Must do:

- **Attach Cleanup** — remove any expired Attached cards from your Assets and yourself. **A Freeze is an Attached "freeze" card** — removing it here is how a Frozen Asset unfreezes.

No per-turn discard — your hand resets to the 3A/2R refill target at the next Opening Bell. Loan maintenance and repayment are handled at Call-it-a-Night.

Reactions (out-of-turn play)

Played **only in response to** an Action card, an individual Asset Synergy fire, or an Event — never proactively on your own turn. **Any player may react to any trigger, affected or not**; the printed effect is the Reactor's, and the Reactor aims their synergy fire wherever they choose. One Reaction per trigger (affected player first, then turn order). **Any Reaction can Counter any Action or any single Synergy fire** (no tier restrictions — the decks are tier-less). Reactions **mitigate** — they reduce or compensate, they do not fully negate. **No Reaction may be**

played in response to another Reaction — the chain ends at the first Reaction. When a Reaction is played, **1 of the Reactor's matching-Industry Assets fires** automatically. **Reactor** = the player who plays the Reaction (may or may not be the Defender).
