

POWERPLAY — Turn Reference Card

1. Initiate Phase

Must do:

- **Draw 1 card** of your choice — Action OR Reaction — from a tier pile (T1/T2/T3) you meet the Power Floor for (T1 = 0 P, T2 = 1 P, T3 = 2 P). *Power is checked, not spent.*
- **Collect Revenue** — Roll 1d6 per Asset Tier you own (separate rolls for T1, T2, T3). Pay Operating Costs first (T2 = 1 C, T3 = 2 C per asset). Collect income per Fiscal Table for all active, unfrozen Assets.
- **Forced Bankruptcy** if income minus Op Costs is negative and reserves cannot cover.

Can do (1 only — free):

- **Market Operations** — choose ONE:
 - **Broker an Asset Deal:** pay brokerage fee (T1 = 1 C, T2 = 2 C, T3 = 3 C), draw top 2 from one Asset deck you meet Buy Floor for, buy one at printed cost, discard the other.
 - **Buy an Action Card:** pay 1 C → draw top of an Action tier pile you meet the Power Floor for.
 - **Buy a Reaction Card:** pay 2 C → draw top of a Reaction tier pile you meet the Power Floor for.
-

2. Action Phase

Must do — exactly 1 Standard Action:

- **Play an Action Card** — pay tier cost (T1 free / T2 1 IP / T3 2 IP), resolve effects. *Cannot target a player with no valid targets.*
- **Sell an Asset** — to bank at printed cost (player-to-player trades only at Call-it-a-Night).
- **Take a Loan** — up to floor(asset cost / 2) from supply. Max 2 active loans / player. Maintenance: 1 C / loan at CIAN (grace round on acquisition). Voluntary repay = principal + 1 C.
- **Skip** — gain 2 C from supply.

Free Actions (do NOT consume Standard Action):

- **Character Ability** — once per turn, pay IP or Power cost (never Coins).
- **PowerPlay!** — pay 1 P → +1 Standard Action this turn AND draw 1 Action + 1 Reaction card. Once per turn. **Sacred** (cannot be Countered).

+1 Action from Events / Investment Bank / etc. stacks even after the Standard Action is spent.

3. Conclude Phase

Must do:

- **Discard** to exactly 3 Action + 2 Reaction cards.
 - **Voluntary loan repayment** (free) — pay principal + 1 C → asset unmortgaged.
 - **Loan cap check** — max 2 active loans; if 3+, default one (your choice) per Loan default mechanic.
 - **Attach Cleanup** — remove expired Attached cards from your Assets and yourself.
 - **Unfreeze** all your frozen Assets.
-

Reactions (out-of-turn play)

Played any time in response to an Action, another Reaction, or an Event. **Counter Tier-Up:** T1 Action ← T1/T2/T3 Reaction; T2 Action ← T2/T3; T3 Action ← T3 only. **Reaction-vs-Reaction is tier-flat.** Reaction chains capped at 2 per Z10 chain rule. **Reactor** = player who plays the Reaction (may or may not be the Defender). Industry Synergies trigger on the Reactor's owned Assets.

PR Bonus

On Action play / Reaction play / Character Ability / Asset ability trigger / Event draw — read the card's Humor text aloud. If any other player audibly reacts → gain **+1 Coin** from the supply.
