POWERPLAY — Round & Turn Order Reference

Default Mode: Casual Edition *(2 Rounds · 4 Turns per Player · 30–45 Min)*
*(Playing the 4-Round Advanced Game? See **Advanced Mode Additions & Overrides** at the bottom of this card.)*

Quick Setup & Anytime Actions (Casual Default)

- **Starting Resources: 1 Power (`P`) · 3 Influence (`IP`) · 10 Coins (`C`) · 2 Deal Tokens**
- **Starting Cards: 3 Action cards + 2 Reaction cards** · **Draw 2 Tier 1 Assets, keep 1 face-up** (discard the other; shuffle back at 5 players)
- **Decks Used:** Action (`40`), Reaction (`30`), Tier 1 Assets (`4 C` , Floor `0 P`), Tier 2 Assets (`8 C` , Floor `2 P` , `+1 IP` Signing Bonus), Casual Event Deck (`15` cards)

Anytime Actions (Whenever a Card or Auction Is Not Actively Resolving):

- **Convert Currency (Upward Only):** Spend **3 Coins → 1 Influence** · Spend **2 Influence → 1 Power**
- **Sell an Asset to the Supply:** Discard an owned Asset for **half printed cost** (**T1 = 2 Coins**, **T2 = 4 Coins**)
- **Make a Two-Party Deal:** Trade Coins, cards, Assets, or IOUs with another player (give **1 Deal Token** to your trade partner)
- **Repay an IOU:** Pay face value (`1 C` per Coin IOU, `3 C` or `1 IP` per Influence IOU) to the holder (Supply or creditor player)

Round Order (6 Steps — Clockwise from Leader)

1. **Morning News & Opening Bell**
   - **Morning News:** Flip 1 Event into the Morning slot and resolve it. Its **+1 Power Objective** can be claimed once per player while active.
   - **Opening Bell (Round 2 only):** Free hand refill up to **3 Action + 2 Reaction cards**; reset **Deal Tokens to 2**.
2. **Market Operation (`N + 1` Sealed-Bid Asset Draft)**
   - **Pull `N + 1` Assets:** Each player pulls **1 Asset** (`T1` or `T2`) to the Market Row + the **Leader pulls 1 extra Asset** (`T1` or `T2`).
   - **Secret Coin Bids:** Reveal simultaneously. Highest-to-lowest bidder (ties broken clockwise from Leader) pays their bid and drafts **1 Asset** (`T1` requires `0 P` ; `T2` requires `2+ P` and grants `+1 IP` Signing Bonus). Remaining unchosen Asset(s) are discarded.
3. **First Player Turns (Clockwise from Leader)** — Each player takes Turn 1 (**The Inbox → Action Phase**).
4. **Lunch Break (`Afternoon News`)** — Flip 1 Event into the Afternoon slot and resolve it (both Morning and Afternoon Events are now active).
5. **Second Player Turns (Clockwise from Leader)** — Each player takes Turn 2 (**The Inbox → Action Phase**).
6. **Call-it-a-Night (End of Round)**
   - **Flat Asset Income (No Dice):** Collect **half printed cost** for each Asset you own: **Tier 1 = 2 Coins** · **Tier 2 = 4 Coins** *(apply active Event modifiers, min 0 C)*.
   - **Currency Conversion & IOU Settlement:** Convert currency (`3 C → 1 IP` , `2 IP → 1 P`) and repay outstanding IOUs.
   - **Thievery (Round 1 only):** The player in last place chooses who receives the **Leader Token** for Round 2.

Turn Order & The `1 + 1` Activation Ladder (Casual Default)

1. The Inbox (Optional Card Shopping)

- Buy up to **1 Action card (2 Coins)** and/or **1 Reaction card (1 Coin)** — for each buy, **draw 2, keep 1, discard 1**.

2. Action Phase (`1 + 1` Synergy Ladder)

Play **1 Action card (Free)** from your hand:

Step	Cost	What Resolves
Base Play	**Free**	Resolve printed **Base Effect** `[Optional]` + fire **1 owned Asset Synergy** matching the card's **Primary Industry**
Influencing Decision *(optional)*	**1 Influence**	Unlock the card's **Secondary Industry** + fire **1 additional owned Asset Synergy** (**2 total fires** in any combination of Primary/Secondary)

- Each owned Asset may fire **at most once** per Action card, and only if your Power meets its Use Floor (`T1 = 0 P` , `T2 = 2 P`).
- **Reactions (`Target-Only` , Chain Cap = 1):** When an Action or Synergy fire **directly affects an opponent**, **only that affected player** may respond with **1 Reaction card** (printed **Mitigation is** `[Optional]` + fires **1 matching-Industry Asset Synergy**). **No Reaction-to-Reaction.**
- **Forced Deficit IOUs:** If you cannot afford a Coin or Influence loss, pay what you have and take an IOU for the deficit (**1 missing Coin = 1 C IOU**; **1 missing IP = 3 C IOU**). Owed to the **Attacker** on *"pays you"* effects, or to the **Supply** on *"loses"* effects.

End of Game: Clean-the-Books & The Board Meeting

1. **Clean-the-Books (After Round 2):** Every player must repay all unpaid IOUs (selling Assets at half cost — `2 C` / `4 C` — if needed). **Any player who still owes an unpaid IOU is ridiculed by the Board and cannot win.**
2. **The Board Meeting (Final Score):** `Final Power Score = Power + floor(Influence ÷ 2) + floor((Printed Cost of Owned Assets + Coins) ÷ 6)`

Advanced Mode Additions & Overrides (4-Round Full Game)

When playing the **Advanced Edition**, use all rules above **with these upgrades**:

- **4 Rounds & Full Box Components:** Play **4 Rounds** (8 turns/player). Add **8 Character Cards** (all start at `0 Power` — *Influencer* `0 P / 3 IP / 7 C` , *Capitalist* `0 P / 2 IP / 10 C` ; no setup T1 Asset draw), **Tier 3 Assets** (`14 C` Cost, Floor `3 P` , Signing Bonus `+1 Power` , Op Cost `1 C`), and all **18 Events**.
- `2 + 1` **Activation Ladder:** Playing an Action card fires **2 Primary-Industry Assets for free**; paying **1 Influence (Influencing Decision)** unlocks the Secondary Industry for **3 total Asset fires**.
- **Free Actions on Your Turn (Do Not Consume Your Standard Action):**
   - **Character Ability (Floor `1 P`):** Free to activate **once per round** (requires holding `1 Power` , checked not spent) at the timing printed on your Character card.
   - `PowerPlay!` **Burst Turn (Floor `4 P` , Cost `2 P`):** Hold at least `4 Power` and pay `2 Power` (once per turn) to play **up to 2 Action cards** this turn (**1 gets the Influencing Decision free**) + **draw 1 Action and 1 Reaction card**.
- **Open Reactions: Any player** (affected or not) may play a Reaction in response to any trigger and aim their Asset Synergy fire at any target.
- **Market Operation Pull Rules:** Opt in and pull 1 Asset from a tier you qualify for (`T1` : any; `T2` : `2 P + 4 C` ; `T3` : `3 P + 7 C`); min bid is half printed cost (`2 / 4 / 7 C`), and you buy the tier you pulled (or higher).
- **Lunch Break Private Equity & Anytime Bank Loans:**
   - **Private Equity** *(after Afternoon News)*: Pay a fee (`T1 = 1 C` , `T2 = 2 C` , `T3 = 3 C`), draw 2 Assets of that tier, and buy 1 at full printed cost (gain Signing Bonus).
   - **Bank Loans (Anytime):** Borrow half printed cost against an unmortgaged Asset (it becomes Mortgaged; max 2 active loans; `1 C` maintenance fee at Call-it-a-Night; settled at Clean-the-Books). Unmortgaged Assets sell to the Supply for full printed cost.
- **Call-it-a-Night Income Dice (Replaces Flat Income):** Roll **1 die per Asset tier owned** (`T1 = D4 + 1` , `T2 = D6` , `T3 = D10` ; die result = Coins paid per Asset of that tier, minus `1 C` Operating Cost per `T3` Asset). Each player starts with **2 Reroll Tokens** (spend 1 to reroll 1 die; one-time use per game).
- **Advanced Final Scoring:** `Total Power = Power + floor(Influence ÷ 2) + floor(Coins ÷ 6) + floor(Total Asset Value ÷ 5)`
